Introduction

Overview

Food Delivery App (GGG) is a multi-vendor food delivery platform connecting customers with restaurants. The platform supports three user roles: customer, owner, and admin.

Base URL: `https://food-delivery-app-ggg.onrender.com`

All endpoints are prefixed with `/api`.

Authentication

All protected endpoints require a JWT token in the header:

```
Authorization: Bearer <token_here>
```

Tokens are issued at login and expire after 7 days.

Response Format

Success responses:

```
{ "success": true, "data": ... }
```

Error responses:

```
{ "success": false, "error": "..." }
```

Menu

Get Menu

`GET /menu/:restaurantId`

Public. Returns all available menu items for a restaurant, grouped by category.

Response

```
{
  "success": true,
  "data": {
    "Pizza": [...],
    "Drinks": [...]
  }
}
```

Add Menu Item

`POST /menu`

Owner only. Adds a new menu item to the restaurant.

Request Body

```
{
  "name": "Margherita",
  "price": 12.99,
  "category": "Pizza",
  "image": "https://...",
  "isAvailable": true
}
```

Response

```
{ "success": true, "data": { "_id": "...", ... } }
```

Update Menu Item

`PUT /menu/:id`

Owner only. Updates a menu item. Only fields provided are updated.

Request Body

```
{
  "price": 14.99,
  "isAvailable": false
}
```

Response

```
{ "success": true, "data": { ... } }
```

Delete Menu Item

`DELETE /menu/:id`

Owner only. Deleted items are also removed from all carts.

Response

```
{ "success": true, "message": "Menu item deleted" }
```

Restaurant

Get Restaurant

`GET /restaurant/:id`

Public. Returns restaurant details.

Response

```
{
  "success": true,
  "data": {
    "_id": "...",
    "name": "...",
    "description": "...",
    "cuisine": "...",
    "image": "...",
    "rating": 4.5,
    "deliveryTime": "30-40 min",
    "deliveryFee": 2.99,
    "minOrder": 10,
    "isOpen": true,
    "owner": "..."
  }
}
```

Update Restaurant

`PUT /restaurant/:id`

Owner only. Updates restaurant details.

Request Body

```
{
  "name": "...",
  "description": "...",
  "cuisine": "...",
  "image": "...",
  "deliveryTime": "...",
  "deliveryFee": 2.99,
  "minOrder": 10,
  "isOpen": true
}
```

Response

```
{ "success": true, "data": { ... } }
```

Create Restaurant

`POST /restaurant`

Owner only. Creates a restaurant.

Request Body

```
{
  "name": "...",
  "description": "...",
  "cuisine": "...",
  "image": "...",
  "deliveryTime": "...",
  "deliveryFee": 2.99,
  "minOrder": 10,
  "isOpen": true
}
```

Response

```
{ "success": true, "data": { ... } }
```

Delete Restaurant

`DELETE /restaurant/:id`

Owner only. Deleted restaurants are also removed from all carts.

Response

```
{ "success": true, "message": "Restaurant deleted" }
```

Categories

List Categories

`GET /categories`

Public. Lists all categories for the current restaurant.

Response

```
{ "success": true, "data": [ ... ] }
```

Create Category

`POST /categories`

Owner only. Creates a category.

Request Body

```
{
  "name": "...",
  "image": "...",
  "sortOrder": 0
}
```

Response

```
{ "success": true, "data": { ... } }
```

Update Category

`PUT /categories/:id`

Owner only. Updates a category.

Request Body

```
{
  "name": "...",
  "image": "...",
  "sortOrder": 0
}
```

Response

```
{ "success": true, "data": { ... } }
```

Delete Category

`DELETE /categories/:id`

Owner only. Deleted categories are also removed from all carts.

Response

```
{ "success": true, "message": "Category deleted" }
```

Reorder Categories

`PATCH /categories/reorder`

Owner only. Reorders categories by setting their sort order.

Request Body

```
{
  "orderIds": ["...", "..."]
}
```

Response

```
{ "success": true, "message": "Categories reordered" }
```

Dishes

List Dishes

`GET /dishes`

Public. Lists all dishes for the current restaurant.

Response

```
{ "success": true, "data": [ ... ] }
```

Create Dish

`POST /dishes`

Owner only. Creates a dish.

Request Body

```
{
  "name": "...",
  "description": "...",
  "price": 12.99,
  "image": "...",
  "category": "...",
  "isAvailable": true,
  "isVegetarian": false,
  "isVegan": false,
  "isGlutenFree": false,
  "spicyLevel": 0,
  "preparationTime": 15,
  "sortOrder": 0
}
```

Response

```
{ "success": true, "data": { ... } }
```

Get Dish

`GET /dishes/:id`

Public. Gets a dish by id.

Response

```
{ "success": true, "data": { ... } }
```

Update Dish

`PUT /dishes/:id`

Owner only. Updates a dish.

Request Body

```
{
  "name": "...",
  "description": "...",
  "price": 12.99,
  "image": "...",
  "category": "...",
  "isAvailable": true,
  "isVegetarian": false,
  "isVegan": false,
  "isGlutenFree": false,
  "spicyLevel": 0,
  "preparationTime": 15,
  "sortOrder": 0
}
```

Response

```
{ "success": true, "data": { ... } }
```

Delete Dish

`DELETE /dishes/:id`

Owner only. Deleted dishes are also removed from all carts.

Response

```
{ "success": true, "message": "Dish deleted" }
```

Toggle Dish Availability

`PATCH /dishes/:id/availability`

Owner only. Toggles the dish availability.

Response

```
{ "success": true, "data": { "isAvailable": false } }
```

Analytics

Get Analytics

`GET /analytics?period=30d`

Owner only. Returns analytics for the restaurant.

Query Parameters

Parameter	Values	Default
period	7d, 30d, 90d, all	30d

Response

```
{
  "success": true,
  "data": {
    "totalOrders": 120,
    "totalRevenue": 1450.50,
    "avgOrderValue": 12.09,

    "items": [ { "_id": "...", "dish": { "_id": "...", "name": "...", "price": 12.99, "image": "...", "isAvailable": true }, "quantity": 2, "specialInstructions": "..." } ],
    "updatedAt": "..."
  }
}
```

Add Item

`POST /cart/items`

Customer only. Adds a dish to the cart. If the cart has items from another restaurant, it will be replaced.

Request Body

```
{
  "dishId": "...",
  "quantity": 1,
  "specialInstructions": "..."
}
```

Response

```
{ "success": true, "data": { ... } }
```

Update Item

`PUT /cart/items/:id`

Customer only. Updates a cart item. Set quantity to 0 to remove it.

Request Body

```
{
  "quantity": 2,
  "specialInstructions": "..."
}
```

Response

```
{ "success": true, "data": { ... } }
```

Remove Item

`DELETE /cart/items/:id`

Customer only. Removes a cart item.

Response

```
{ "success": true, "data": { ... } }
```

Clear Cart

`DELETE /cart`

Customer only. Clears the entire cart.

Response

```
{ "success": true, "message": "Cart cleared" }
```

Order

Create Order

`POST /order`

Customer only. Creates an order from the current cart.

Request Body

```
{
  "deliveryAddress": "...",
  "paymentMethod": "card",
  "notes": "..."
}
```

Response

```
{ "success": true, "data": { ... } }
```

Get Orders

`GET /order?page=1&limit=10`

Customer only. Lists orders, newest first.

Response

```
{
  "success": true,
  "data": [ ... ],
  "pagination": { "page": 1, "limit": 10, "total": 25, "pages": 3 }
}
```

Get Order

`GET /order/:id`

Customer only. Gets a single order.

Response

```
{ "success": true, "data": { ... } }
```

Cancel Order

`PATCH /order/:id/cancel`

Customer only. Cancels an order.

Response

```
{ "success": true, "data": { ... } }
```

Payment

Create Payment Intent

`POST /payment/intent`

Customer only. Creates a Stripe payment intent.

Request Body

```
{
  "orderId": "..."
}
```

Response

```
{ "success": true, "data": { "clientSecret": "..." } }
```

Admin

Dashboard

`GET /admin/dashboard`

Admin only. Returns platform-wide statistics.

Response

```
{
  "success": true,
  "data": {
    "totalUsers": 150,
    "totalOrders": 1200,
    "totalRevenue": 14500.00,
    "activeRestaurants": 12,
    "ordersByStatus": { "delivered": 1000, "cancelled": 200 }
  }
}
```

Users
